HJM

ABOUT US

With over two decades of experience in the public works and construction machinery sector, at HJM we take pride in highlighting our role as trusted distributors of Hitachi, representing quality and excellence in the market.

With a solid track record, we have decided to take our commitment to the next level. We have diversified our product range to include complementary brands, allowing us to offer our customers an even more comprehensive selection tailored to their specific needs.

At HJM, we don't just sell machinery; we are committed to providing the best service, both during the sales process and in after-sales support. Our focus is on ensuring the quality and reliability of every product we offer. We take pride in providing close and personalised attention, establishing strong relationships with our customers.

EXPLORE OUR INTERACTIVE BROCHURE

CHR

the most sustainable option

At our headquarters, we have also had the only approved scrapyards and CAT centre for machinery in Spain since 2006.

At CHR, we give new life to machinery by taking advantage of its components, allowing customers around the world to access high quality parts at a more economical price and reducing their carbon footprint.

This initiative not only reflects our commitment to efficiency and sustainability, but also strengthens our ability to provide comprehensive solutions to our customers.

TURNKEY INTEGRATED SERVICE

At HJM, we offer comprehensive solutions that address the entirety of projects and meet our clients' specific needs.

We implement a unique strategy by combining machinery from various brands in a carefully selected composition, allowing our clients to source everything exclusively from HJM. This diversification not only ensures greater flexibility and efficiency but also enables us to create turnkey projects, providing our clients with the convenience of obtaining everything they need in a cohesive and hassle-free manner.

AFTERSALES SERVICE.

By your side, from start to finish.

At HJM, we ensure optimal performance of our equipment through a highly qualified technical team and the use of the best spare parts. We offer comprehensive maintenance contracts for our brands, tailored to our clients' needs. From preparing equipment for intensive campaigns to refurbishing used machines, our goal is customer satisfaction at any time and place.

Together with our clients, we have built relationships based on mutual trust, providing the best possible service with a dedicated team and the necessary resources to achieve it.

With first-class control, logistics, and storage infrastructure, HJM ensures optimal availability of parts to maintain work continuity.

SPARE PARTS

HJM's spare parts division, made up of expert professionals, ensures responsive solutions for the needs of all the brands we represent.

In our webshop, you will find both original parts from the brands we represent and a wide range of refurbished parts at more economical prices, as well as high-performance parts developed to meet our clients' specific requirements.
